VIDEO RESUME

TASK-1

Hi, I'm Shehnas M S, a 22 year old passionate web developer. It's my pleasure to introduce myself to you . I graduated from APJ Abdul Kalam Technological University ,Kerala, in 2022 with a bachelor's degree in Computer Science. I have joined Capgemini as an analyst/software engineer.

My interests are in web development and I love to create beautiful websites with delightful user experiences. After joining Capgemini, I got trained in JavaScript full stack. Were I have learned technologies like Javascript, Angular ,ReactJS,NodeJs, MongoDB,express JS,HTML , and CSS Also I have done projects in MERN and MEAN stack. MEAN project was digital super market. It was a group project and several modules were there. We have used express for connecting to the server. And I worked on search, cart module and connecting to the backend. Second project was E-banking system in MERN stack. In this project i worked on admin module. We have faced so many challenges creating the project and we were able to clear it as a group and have successfully done the project. And I believe that my project experience has allowed me to increase my attention to detail and critical thinking skills as well as enhance my communication skills working on team based projects. Also I have gained confidence in developing projects.

Back in college,I have done internship in web development And I have designed a portfolio website also i was a part of creating website for inter college technical fest. Now as part of upskilling myself I am learning Java full stack from online platforms like Coursera and Udemy. And also recently I have done certification in Agile fundamentals. Apart from technical skills, I love to paint ,do calligraphies and designing. I'm excited to collaborate on a team and apply my technical skills to develop applications and systems along with contributing to your team in a way that positively impacts the organisation.

Thank you so much.
